## PACKAGING SOLUTIONS

---

*Introducing our new eco-friendly and product catalogue  
featuring sustainable ribbon options made from  
paper, cotton, bamboo, tencel, and rPET.*

...

*We understand the importance of reducing our carbon footprint  
and minimizing our impact on the environment while still  
maintaining The Final Touch to complete your vision. By using these eco-friendly  
materials, we are not only helping to preserve natural resources, but also  
promoting sustainable packaging practices.*

...

*By choosing our eco ribbon, you can feel good knowing that  
you are making a responsible choice for the planet.*

## Tencel

Introducing Tencel, a revolutionary new fiber that is taking the fashion and textile industry by storm. Made from sustainably sourced wood pulp, Tencel is known for its ultra-soft feel, durability, and sustainability. Not only is Tencel a great choice for ribbon, but its production process is also environmentally friendly, using less water and energy compared to traditional cellulose fibers. Upgrade your packaging and join the sustainability movement with Tencel.

## Bamboo

Bamboo fibers are a sustainable and eco-friendly alternative to traditional ribbon materials. They are softer than cotton, stretchy, and strong and durable, making them perfect for packaging and gift wrapping. Bamboo ribbon is also biodegradable, adding an extra element of environmental responsibility to your product packaging.

# rPET

## Double Face Satin & Grosgrain

OLD GOLD

## rPET

rPET is simply recycled plastic that has been recycled, reprocessed, and made into something new. Plastic bottles get a second life, and are transformed into decorative ribbon while keeping the same feel and quality as our regular stock ribbon.

# COTTON

---

## *Twill & Tape*

Cotton ribbon is a popular choice for packaging and gift wrapping due to its softness and natural texture. It is also a biodegradable sustainable option as cotton is a renewable resource, which makes it an eco-friendly choice for packaging materials.
